

GEOMETRIJSKI OBLICI

ODGOJITELJICA SANJA KORENIĆ

KRUG

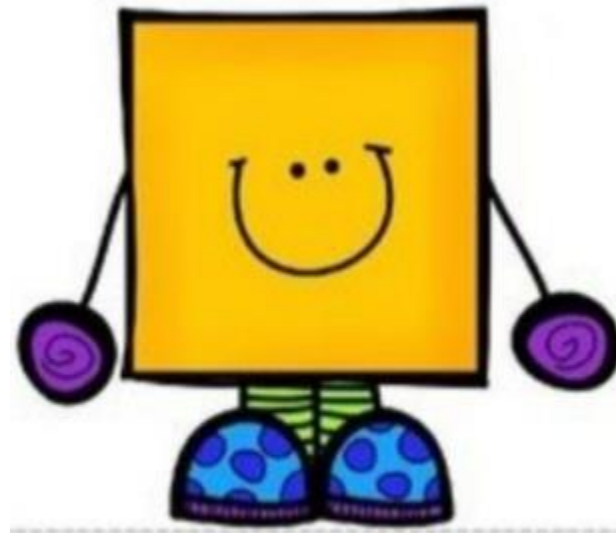

TROKUT

PRAVOKUTNIK

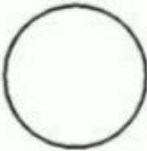

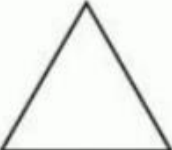

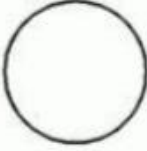

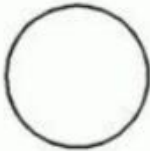

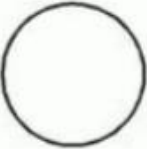

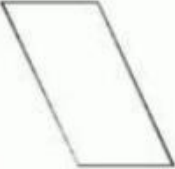

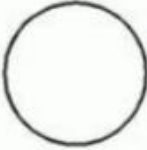

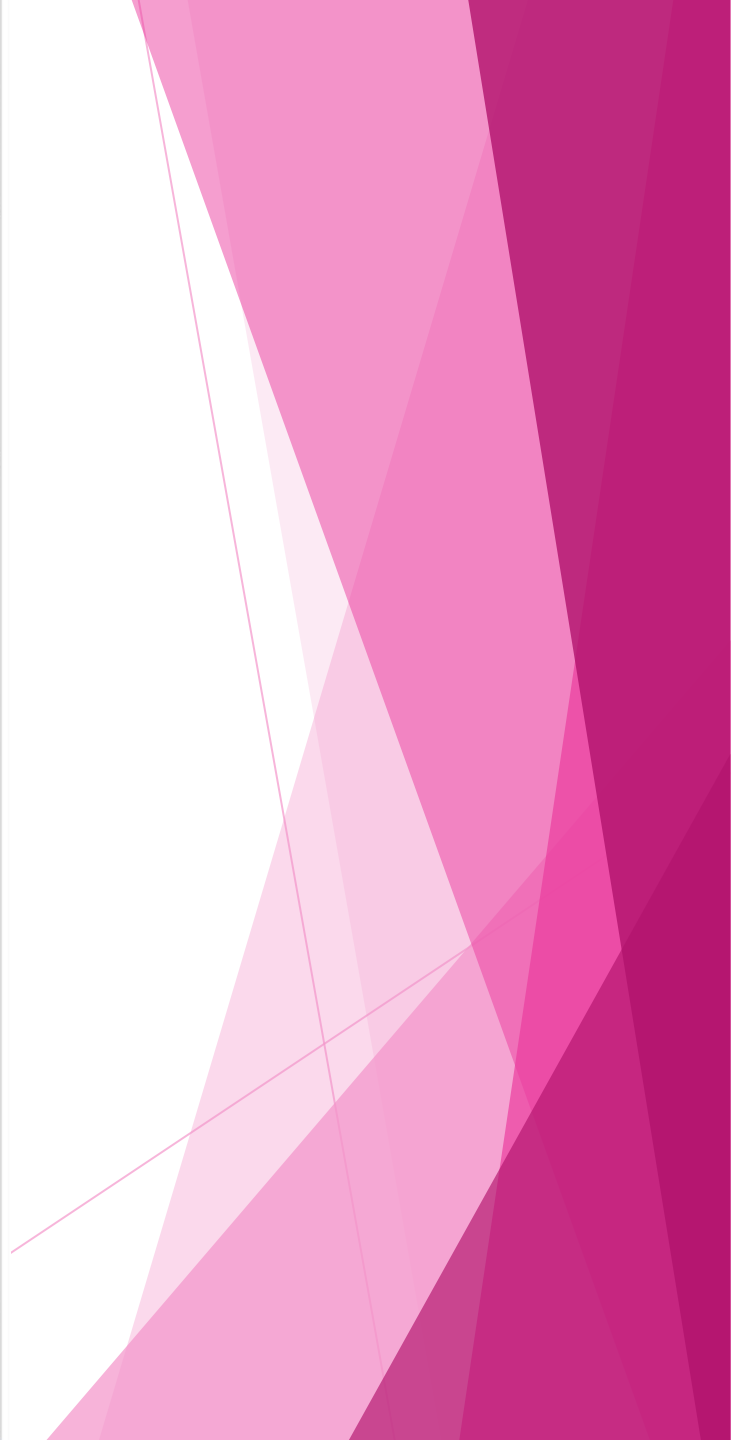

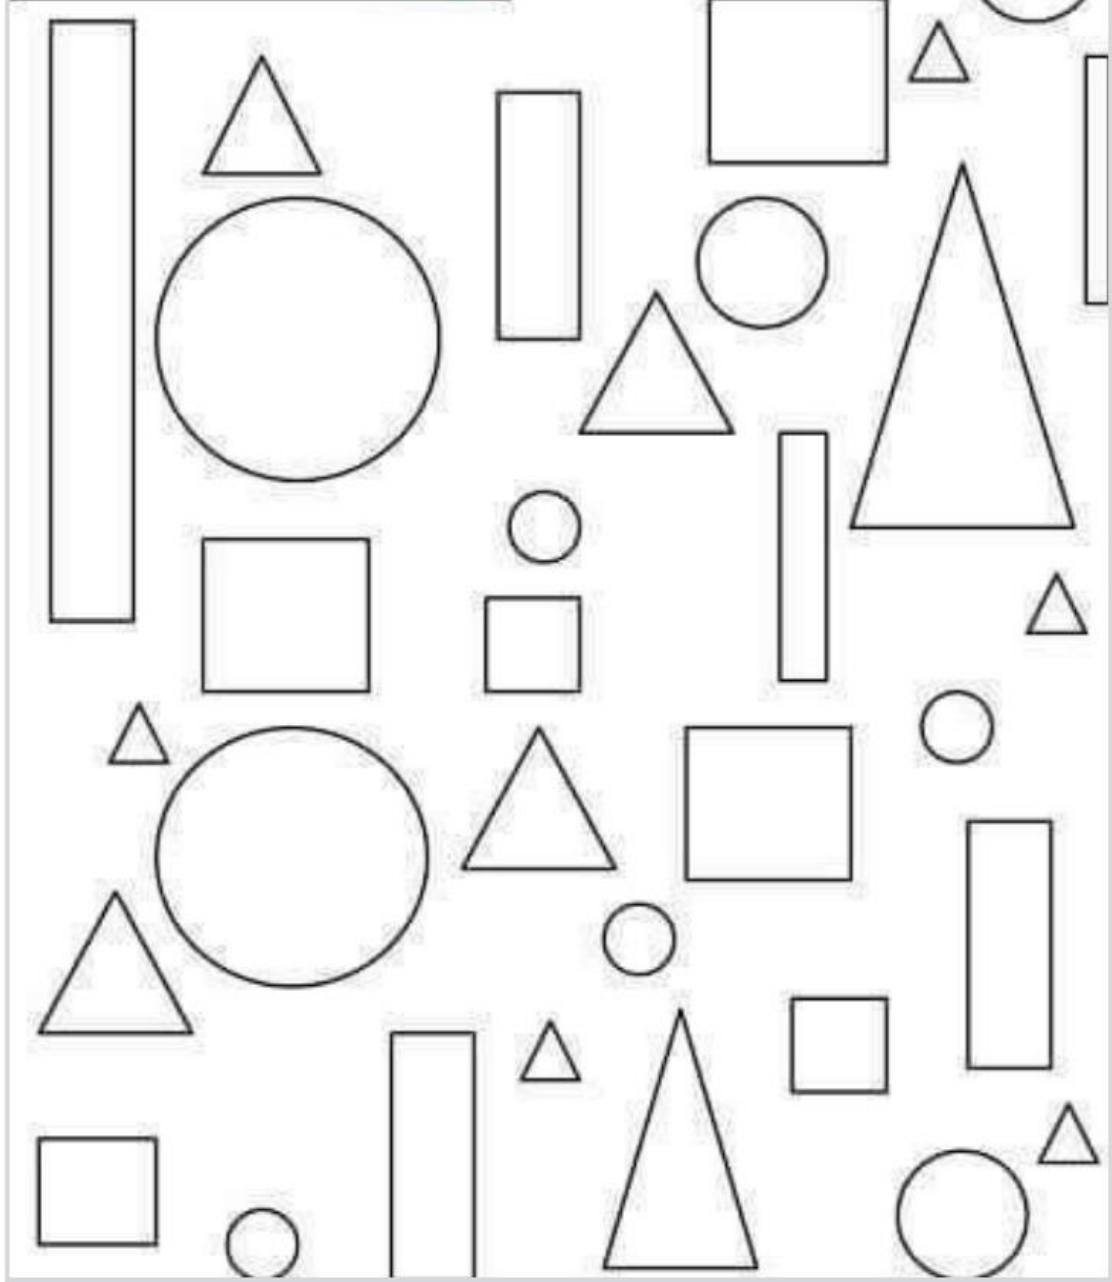

KVADRAT

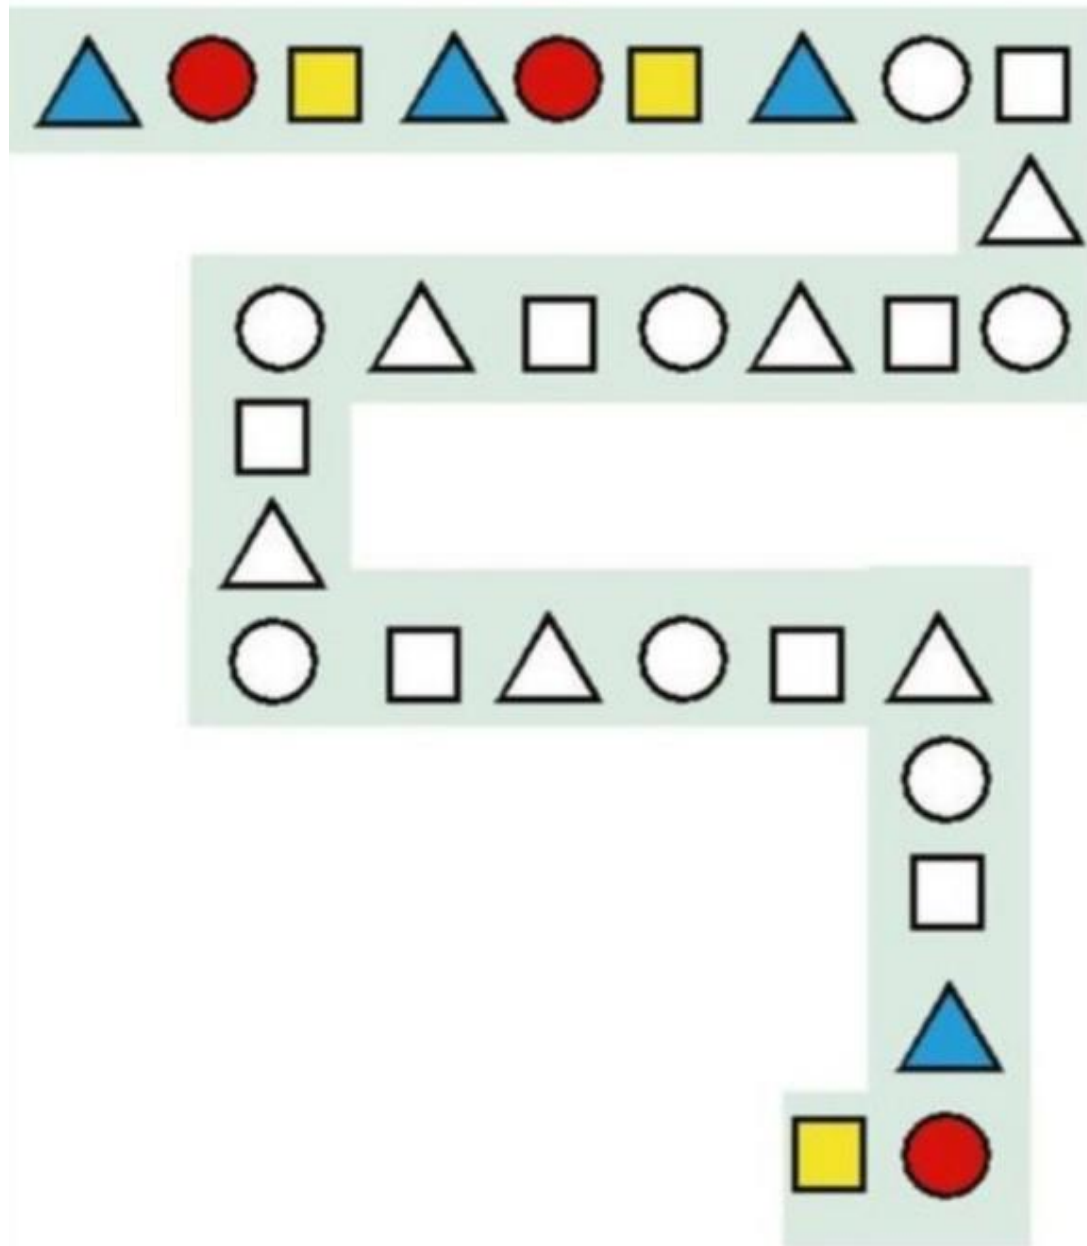

GEOMETRIJSKI OBLICI

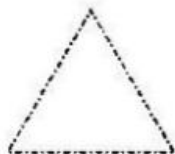

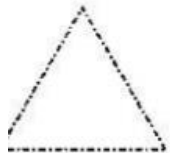

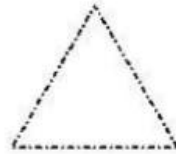

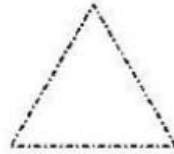

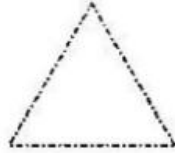

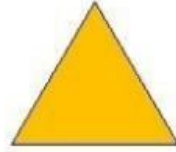

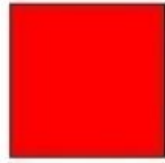

- ▶ Geometrijski oblici spadaju u početne matematičke pojmove i o njima djeca uče u prvom razredu, ali već se vrtiću upoznajemo se sa njima, učimo ih imenovati, prepoznavati i crtati.
- ▶ U vrtiću geometrijske likove najlakše djeci približim kroz lutke na štapu, svaki oblik se djeci predstavi, na taj pridobijem njihovu pažnju te puno ih lakše prepoznaju i imenuju.
- ▶ Lutkama na štapu djeca upoznaju trokut, pravokutnik, krug i kvadrat
- ▶ Kroz istraživačke igre tražili bi te oblike u prostoru u kojem borave, igrali se raznim didaktičkim igrama, ispunjavali male radne listiće, kroz igru tražili bi te likove u šetnjama.
- ▶ Geometrijske likove crtamo, izrežujemo iz kolaža ili kartona, oslikavamo, od ponuđenih likova stvaramo različite slike.
- ▶ Načina je mnogo, izaberite i vi koju aktivnost za vaše dijete ili još bolje neka si dijete samo izabere zadatak iz ponuđenih koje slijede.

				
				
				
				
				
				
				

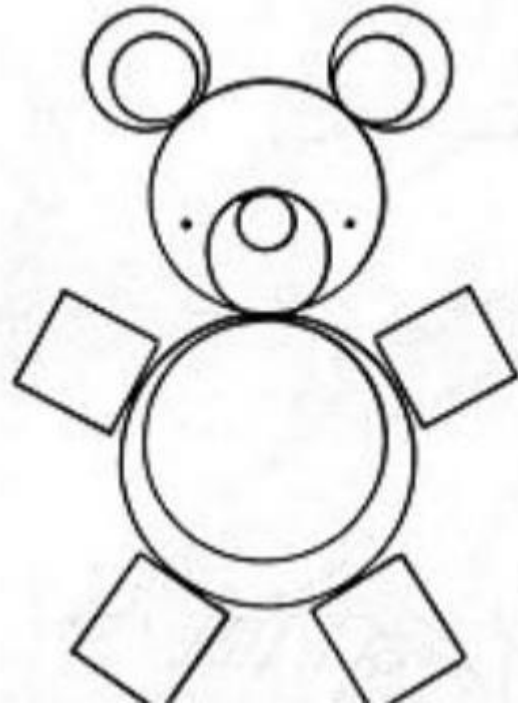

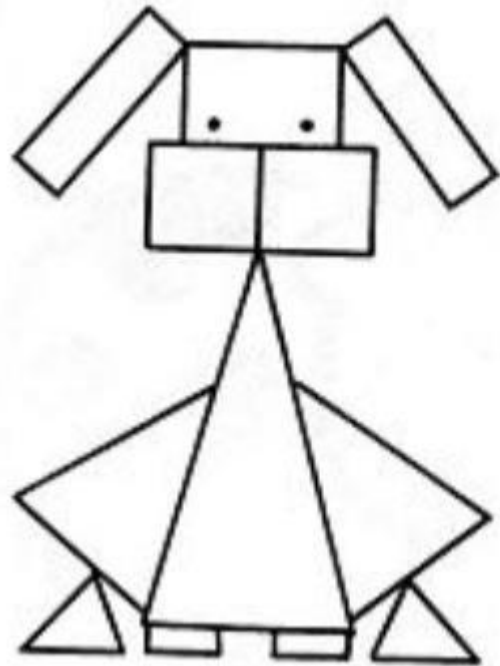

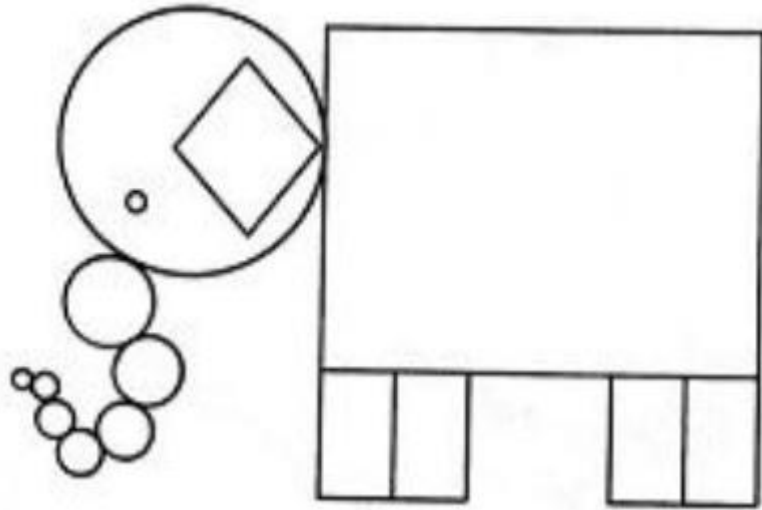

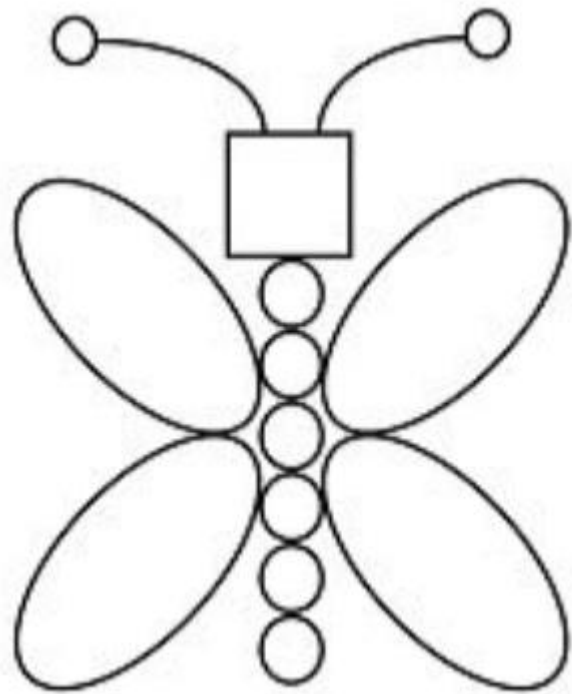

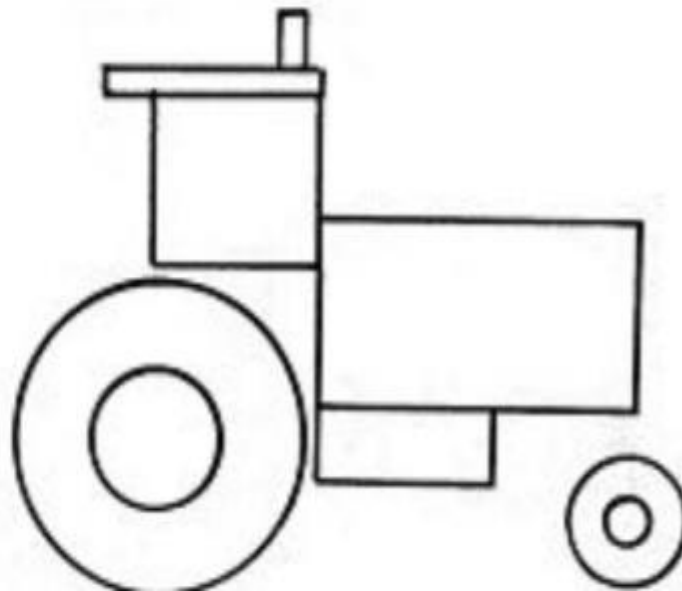

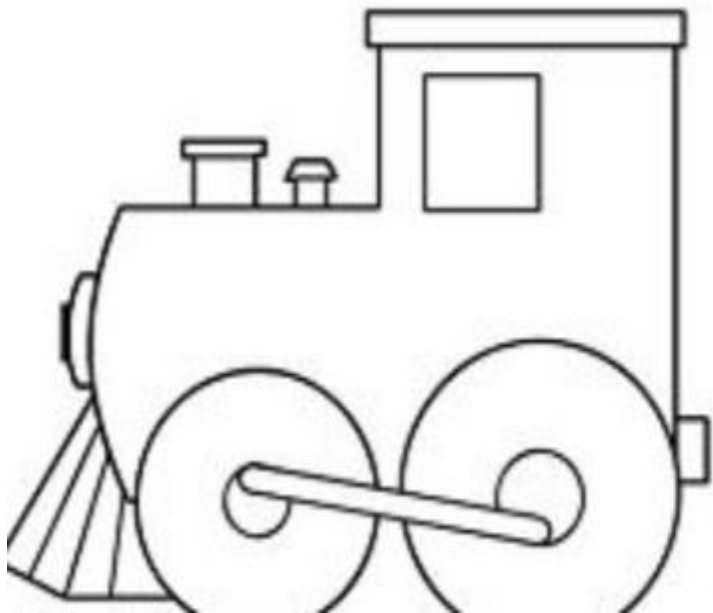

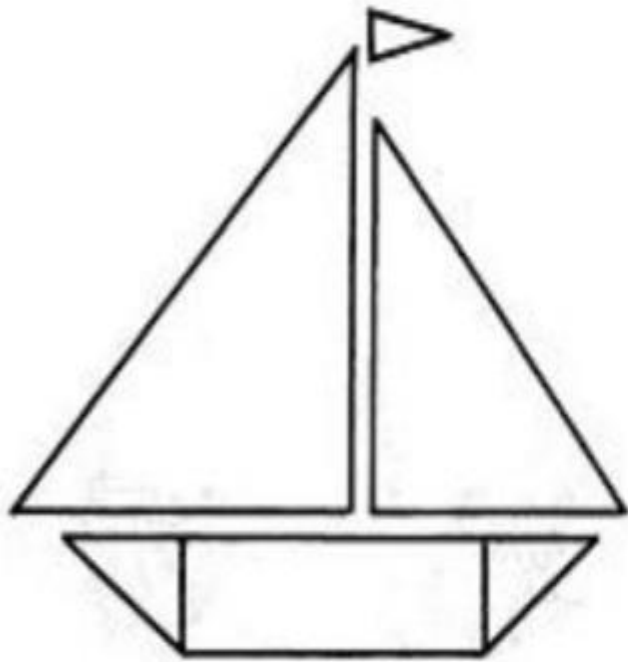

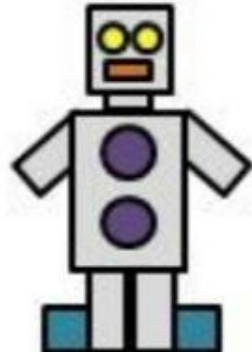

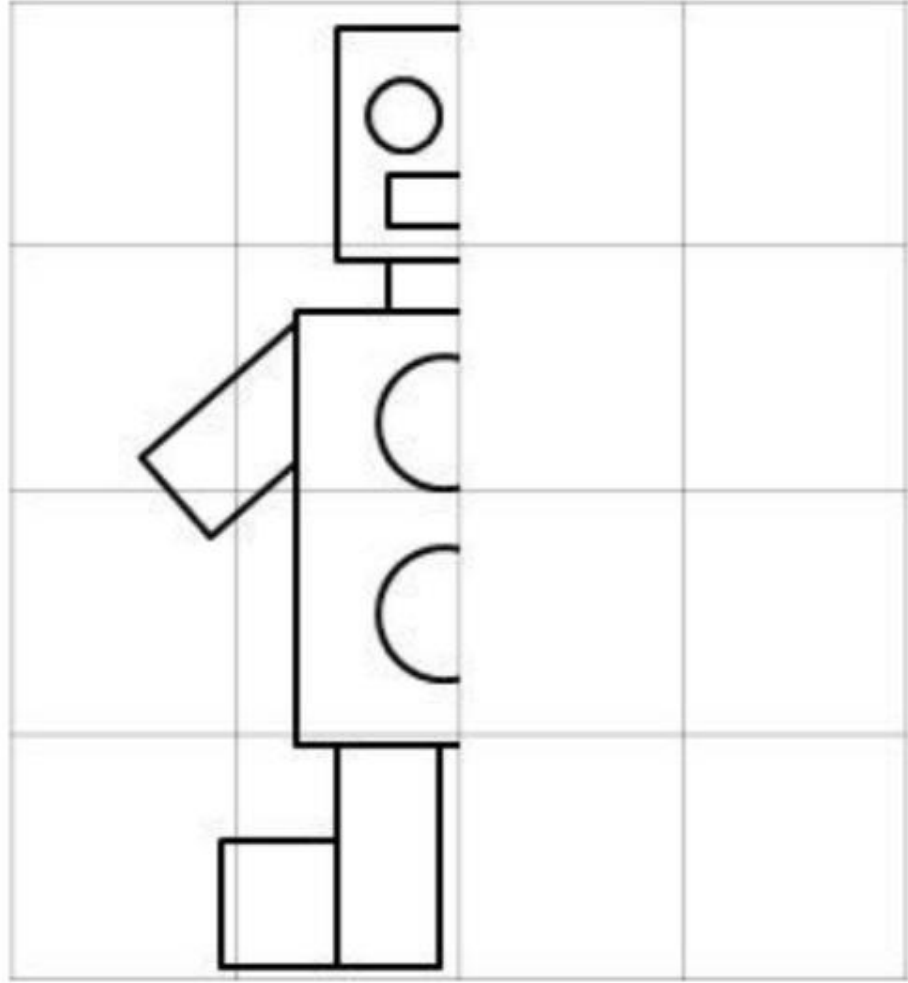

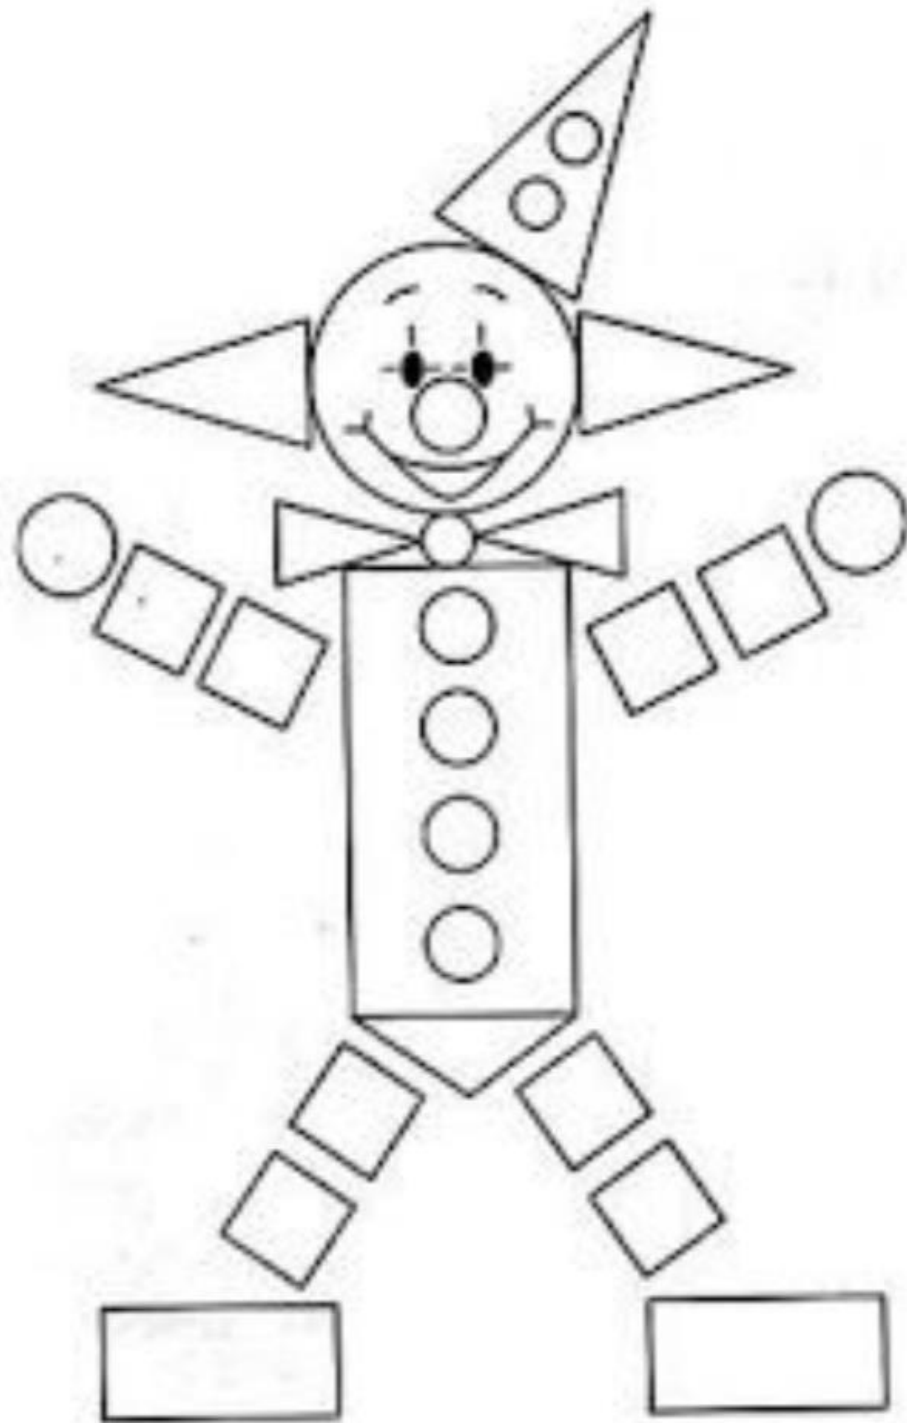

Name: _____

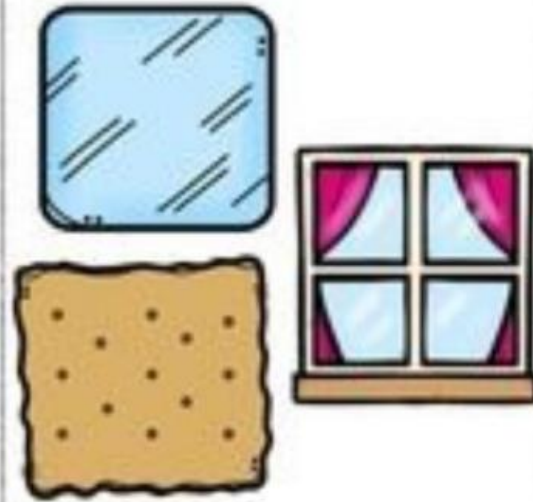

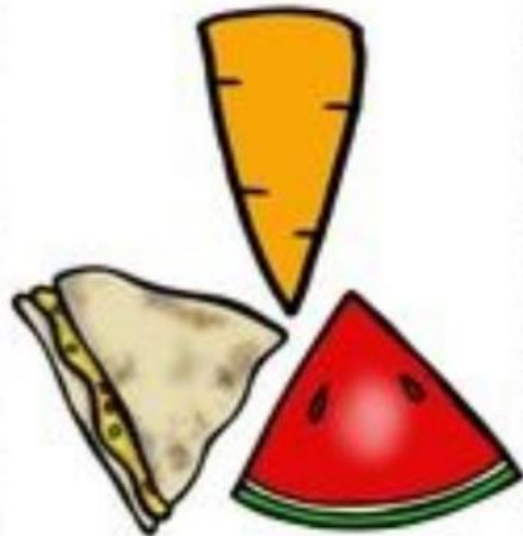

circle

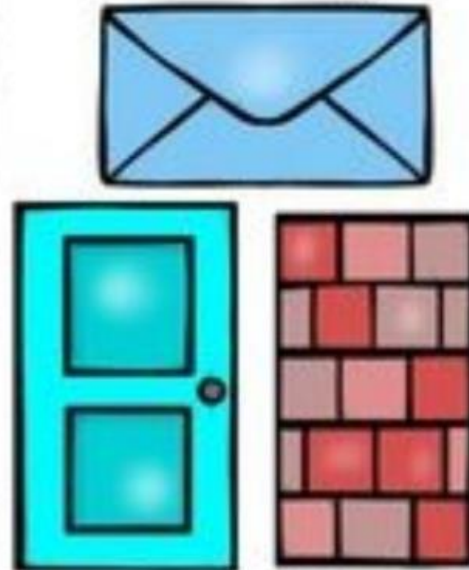

square

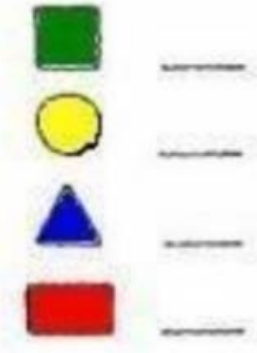

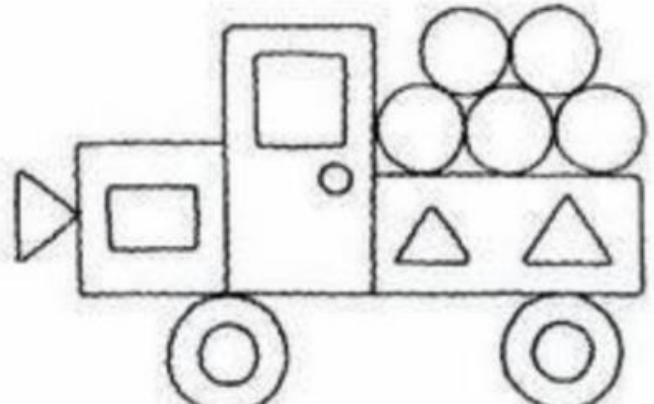

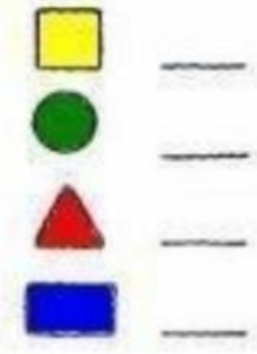

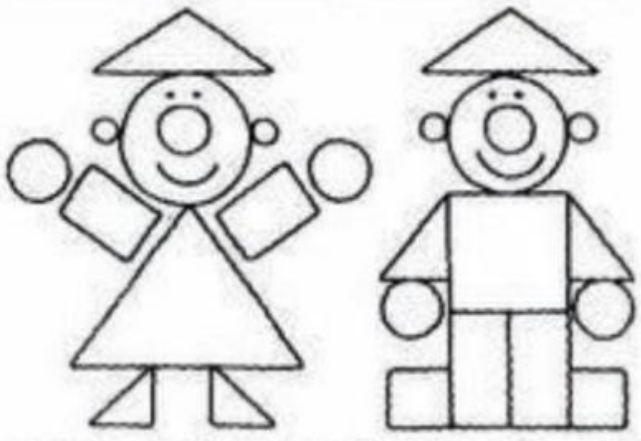

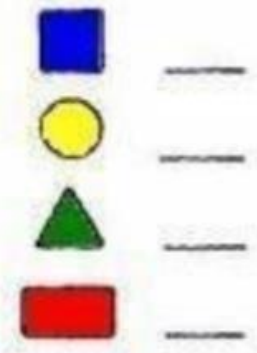

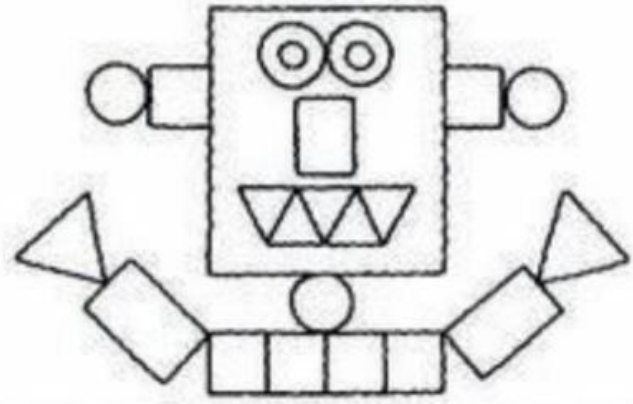

triangle

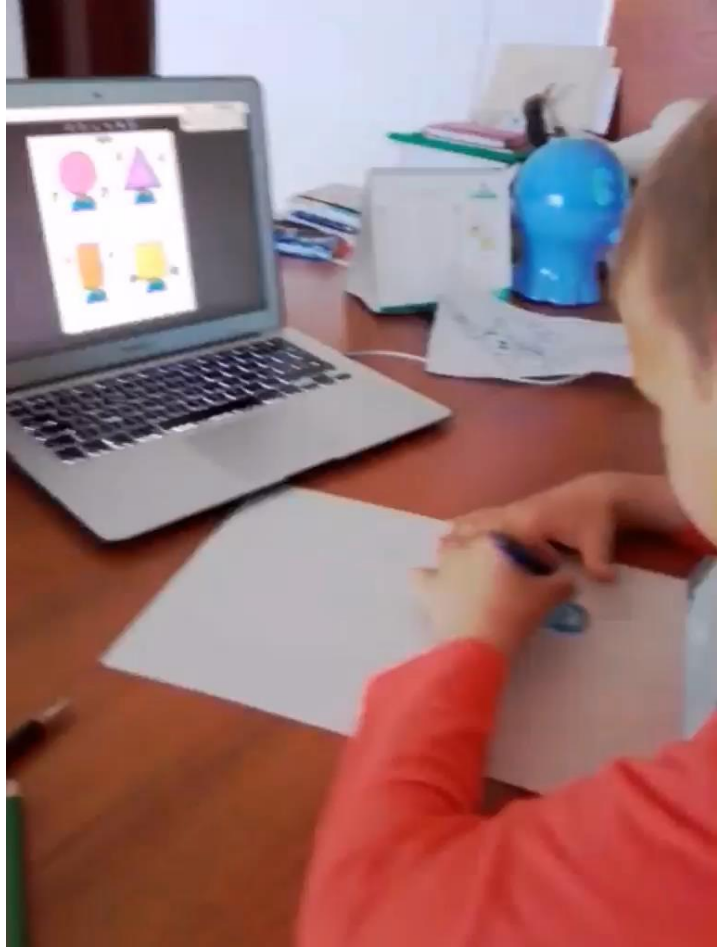

rectangle

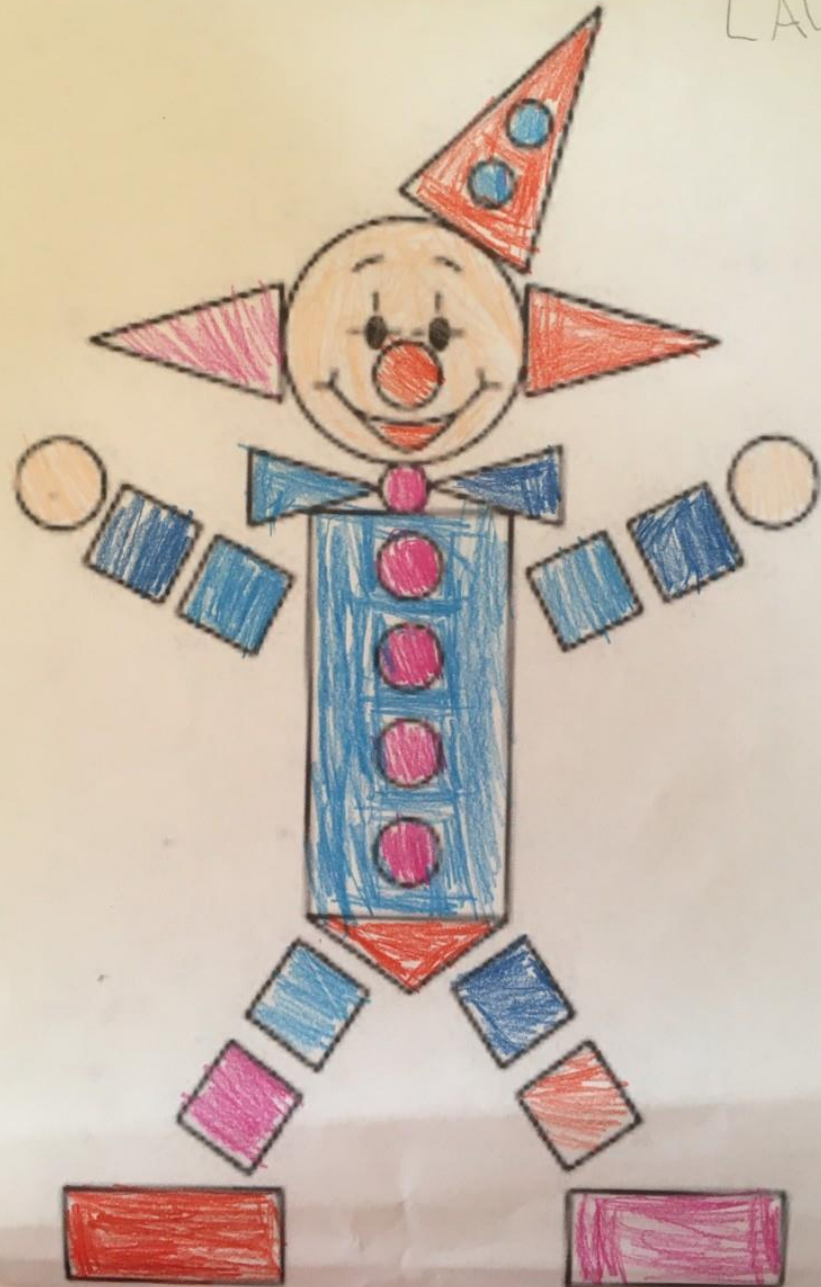

Pogledajte kako su se potrudili naši najmlađi 😊

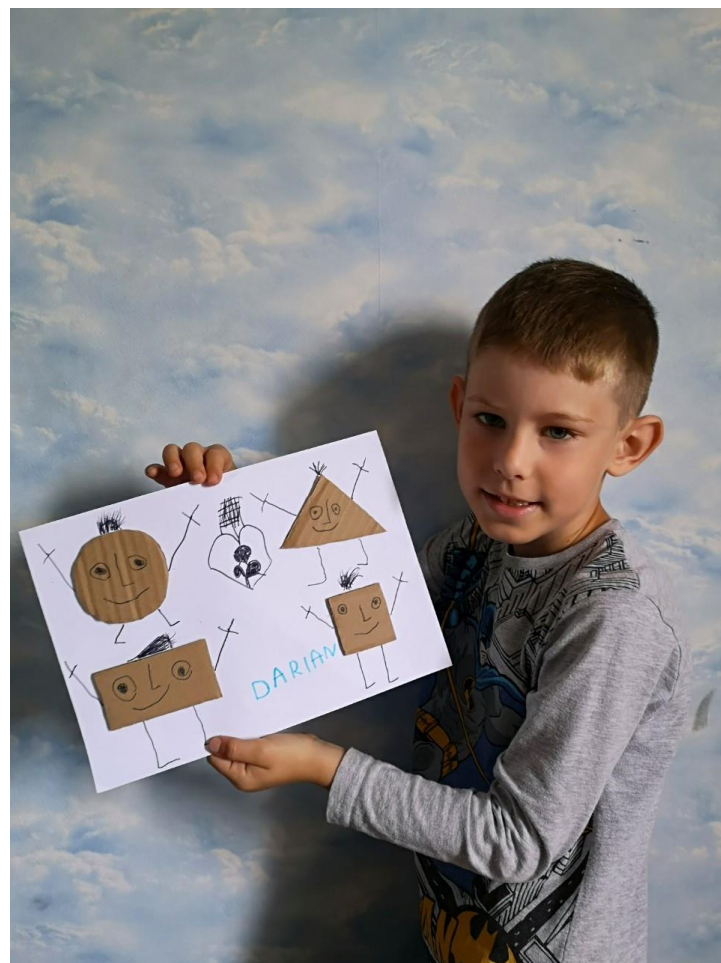

LAVRA

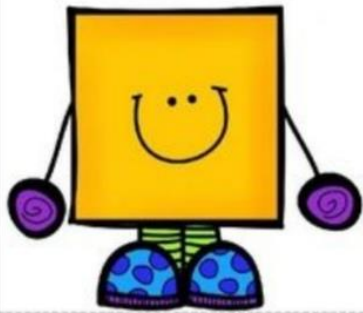

ika djela

PUNO HVALA DJECI I RODITELJIMA!!!
